This appendix to "Returned To Sender 2005: No Mail Receptacle" (originally published in *Auxiliary Markings* 9: 2-7) matches the figure numbers of the original published paper. The figures have full captions provided below and all examples of the auxiliary markings are illustrated, rather than only the illustrative examples of the original paper. The item numbers are reported in the order in which they are illustrated; the underlined items are those illustrated in the published article. For convenience in comparison, all markings associated with a single figure appear on the same page.
